Poznámka: Když si velmi pozorně poslecheš track bicích (drums only), můžeš místy - v malém i velném bubnu - slyšet "nečistoty", které by se daly považovat za ghost strokes. Je na tobě, jestli se je pokusíš napodobit. V této transkripci jsem je nezapsal, protože jsou příliš neurčité.

Note: If you listen very carefully to the drums only track, you can sometimes hear "mess" both in the snare drum and the kick drum, which can be considered as ghost strokes. It's up to you if you try to immitate them. I didn't write them down in this transcription because they are too vague.
